STEALTHTOUCH
a touch of class

The StealthTouch is a state-of-the-art All-in-one touchcomputer powered by Intel technology, and is designed to withstand harsh and demanding environments. Every StealthTouch's screen is protected against liquid spills, and lasts millions of touches.

The StealthTouch's versatile design allows it to be configured to meet your application requirements and budget. It can run as a thin client on a solid state disk (SSD), or support more complex applications under Windows or Linux. With its long shelf life (minimum 4 years), the StealthTouch will lower your total cost of ownership.

The StealthTouch has been successfully installed in the restaurants, retail stores, convenient stores, factories, warehouses, banks, casinos, and hospitals worldwide.

· Display size from 10" to 21."5"
· Intel Atom DualCore 2GHz, up to Core i7 series
