

## THE S-LINE II

with integrated EPSON® printer

The S-Line Series redefines the all-in-one design by integrating an EPSON® thermal receipt printer into a touch computer. Its compact design allows easy setup, reduces cable clutter, and saves precious counter space.

The S-Line's patented tool-less design allows the printer to be replaced in the field within minutes, without affecting the entire system. The integrated EPSON® printer supports 80mm paper roll.

The S-Line saves counter space, which can be used to generate additional revenue by displaying advertisement or impulse merchandise. The S-Line can also be strategically placed in a store as a Point-of-Information or Self-Check-Out kiosk to provide convenience and improve customer satisfaction.

Ideal for retail, restaurant, bar, quick service point-of-sale, point-of-purchase, self-ordering kiosk, and queue management.

- 15" True Flat
- Quad Core 2GHz, up to i7
- 2GB memory, up to 16GB
- Hard drive, or SSD for storage
- POS 7, Windows 7, Windows 8.1, Windows 10, Linux
- Intel Gigabit network (built-in WiFi option)
- 4 Serial and 5 USB ports
- PoweredUSB +12V and +24V
- Integrated EPSON® 80mm thermal printer
- Add-ons: Card reader, Biometric, Secondary LCD, RFID reader, 1D/2D barcode reader.

Pioneer POS Inc. designs and manufactures a complete line of industry specific all in one computers, touch screen monitors, kiosks, and tablets. Founded in 1994 and based in California, Pioneer POS's solutions have been deployed in the Retail, Hospitality, Factory Automation, Gaming, and Healthcare environments. Pioneer POS has built an exceptional reputation with its customers and solution partners for superior flexibility and responsiveness to customer needs including short lead times, long product life cycles (minimum of 5 years), easy customization, and quick turnaround. Pioneer POS sells through qualified technology resellers throughout the US and globally.
